

2009 DogRock Spring e-newsletter

Dear Members,

Welcome to the spring of 2009. A relative wet winter has seen some water find it way into our dams and this is good. The bad part is the warming trend which means our vines are waking early and we had to hurry to finish pruning but all is well. Our 2009 new release wines are all crackers and 2008 was superb for reds. Sure, I hear you say. Well, for starters, our 2008 Grenache topped the points and was awarded a silver medal at the recent Winewise small vigneron awards and the 08 Degraes Road was given 3rd top points in its class and just missed a silver by 2 points. All this just 5 days after being bottled. (bottling sends the wines into a short period of shock for those unaware). James Halliday also gave the 2007 Pedro's Sparkling red 93/100 points and the 2008 Grenache 92/100 points. Spring is here, its all good.

If you visit the Wineaustralia.com website you will see that DogRock is the featured winery promoting the Pyrenees region to the world while the Victorian Dept. of Primary Industries have us on their website as the wine industries business feature with relation to adapting to climate change. And who said that 12 years of unpaid labour, many hundreds of thousands of dollars and no weekends would go unnoticed?

Cellar Door re-opens with our new release wines on Sunday September 6th. 114 Degraes Road Crowlands or follow the signs. Enquiries on 0409 280 317
